On December 20, 2018, the Office of the Regulator of Oil and Gas Operations (OROGO) received a complete application from Strategic Oil and Gas Ltd. (Strategic) for the suspension of the Cameron 2H-03 well.

Strategic also filed additional information with OROGO on January 15, 17 and 18, 2019, in response to Information Request No. 1.

The Regulator, designated under section 121 of the *Oil and Gas Operations Act* (OGOA), may issue a Well Approval under section 10(4) of that act. The Regulator has delegated the power to issue authorizations under section 10(4) of OGOA to the Chief Conservation Officer, in accordance with section 8 of that act.

I have reviewed Strategic's description of its proposed activity and find that the application demonstrates that this activity will be conducted safely, without waste and without pollution, in compliance with the *Oil and Gas Drilling and Production Regulations*. Therefore, Strategic's application is approved, subject to the terms contained in the attached Well Approval.

Strategic must post a copy of the attached Well Approval in a clearly visible location at the work site.
