Attention Pauline deJong, Chief Conservation Officer

**Re: Operations Authorization for the Cameron Hills Field (OA-2018-003-SOG)
Emergency Response Plan Update due April 30, 2019**

On March 20, 2019, Strategic Oil and Gas Ltd. (SOG) received a Letter of Decision on their application for an Operations Authorization for the Cameron Hills Field approving SOG's application and granting SOG the subject Operations Authorization (OA). Pursuant to Additional Term 10 of the OA, SOG is required to submit an amended Emergency Response Plan by April 30, 2019 containing updates as specified in Additional Term 10.

SOG respectfully requests an extension to May 31, 2019 to provide the amended Emergency Response Plan (ERP). The extension is requested so that SOG may update its entire ERP to include all area updates and ensure continuity throughout all areas while completing this process in an efficient and cost-effective manner. The current plan on record ensures we have an appropriate plan in place in the event of an emergency.

We thank you in advance for your time and consideration in this matter.

Sincerely,
Strategic Oil and Gas Ltd.

Shari David
Technical Assistant & HSE Coordinator
