

Incident #	INC-2019-009-SOG-OA-1237-001	
Incident occurred on:	October 14, 2018	
OA/ACW #:	OA-1237-001	
Operator:	Strategic Oil and Gas Limited (SOG)	
Location:	Cameron Hills – D-49	
Summary of incident:	Sour Gas (H ₂ S) Release	
Incident reported to OROGO by the operator on:	March 29, 2019	
Incident reported to NT-NU Spill Line (if required) on:	March 29, 2019	
Operator Follow-up Investigation Report:	Due: April 19, 2019 Received: April 12, 2019	
Status:	<p>March 29, 2019: Notification to OROGO and the GNWT Spill line by SOG which failed to report a sour gas release that was identified on October 14, 2018. Spill line and assigned number: 2019142</p> <p>At the time of the incident, the sour gas release was terminated following depressurization of the flow line to the flare stack and the well head was isolated to prevent further releases. Well head repair and well bore suspension work was conducted to place a plug in the well bore on February 3, 2019.</p> <p>April 12, 2019: OROGO reviewed the Investigation Report and is satisfied that SOG has taken appropriate actions to secure the well that all personnel are aware of regulatory requirements for reporting incidents</p> <p>Incident file closed.</p>	
Completed By:	Brian Heppelle – Chief Safety Officer
