**TALISMAN ENERGY INC. GEOPHYSICAL OPERATIONS  
SUBMISSION – JUNE 10, 2008**

Please find enclosed seven reports from Talisman Energy Inc., Devon Canada, and EXPLOR concerning geophysical and geological operations relating to Exploration Licenses in the Deline District, Sahtu Settlement Area, NWT.

The Talisman Energy reports concern seismic and geochemical surface sampling operations in 2007. The seismic report includes data interpretation that merges the 2007 seismic program with data from the EXPLOR operated 2006 program.

EXPLOR's report concerns the 2006 seismic program, but does not include any interpretation products. Those are found in the merged products found in Talisman's report.

Devon Canada's reports concern a series of gravity data acquisition programs operated by Excel Geophysics, done in three stages.
