Department of Northern Affairs
and National Resources,
OTTAWA, Ontario.

Dear Sir:

Re: Northwest Territories Permits 1042, 1043,
1049, 1050, 1138 and 1139 - Arrowhead Project
Summary of Geophysical Operations
and Statutory Declaration.

Pursuant to your letter dated January 30, 1959, we are pleased to submit a summary of work done on the subject permits and a Statutory Declaration, in triplicate, certified by an independent auditor for that period, May 1, 1958 to October 31, 1958.

The British American Oil Company Limited Seismic Party No. 2 conducted operations on the subject permits from May 1, 1958 through to September 20, 1958 when operations on this project were suspended. A total of 246 miles of seismic reflection control was conducted in 129 days by a crew of thirty men. This includes time involved in moving the crew. In addition, fifteen miles of off-permit reflection control was obtained in seven days. This off-permit work is located immediately east of Permit 1049 and is within 3/4 of a mile of the permit boundary. This was necessitated in view of the inaccessible terrain along the eastern edge of this permit. Attached for your information is an engineering map showing all seismic program conducted on these permits to date with the control obtained during the period, May 1, 1958 through to October 31, 1958, underlined in red.

As you are aware, by letter dated October 17, 1958 we requested that the work requirements for the first eighteen-month period and the required guarantee deposits for the second eighteen-month period totalling \$17,310.00 on Permits 1138 and 1139 be taken out of the \$180,637.40 excess credits established, and that the balance of \$163,327.40 be set aside as excess work credits. Therefore, subject to your approval, the \$212,045.00 stated in the attached Statutory Declaration will establish total excess credits in the amount of \$375,372.40.

Mr. A. B. Connelly

February 13, 1959.

Regarding your request of Clause 4 in your letter dated January 30, 1959, attached is a summary of automobile expenses regarding the Arrowhead Project in the amount of \$14,095.00.

We trust that the foregoing will meet with your approval, and it would be appreciated if you would confirm same.

Very truly yours,

THE BRITISH AMERICAN OIL COMPANY LIMITED

PRODUCTION AND PIPE LINE DEPARTMENT

June 9, 1958.

Mr. A.B. Connelly,
Chief, Mining and Lands Division,
Department of Northern Affairs and
National Resources,
OTTAWA, Ontario.

Dear Sir:

Re: Northwest Territories Permits
Nos. 1042, 1043, 1049 and 1050
Arrowhead Project - Summary of
Geophysical Operations.

Further to our letter of May 22, 1958, in which application was made to extend the subject Permits for the second eighteen-month period, we are pleased to submit a summary of the work done.

The British American Oil Company Limited Seismic Party No. 2, consisting of 32 men, commenced operations on the project approximately January 2, 1958. The first nine days were spent in bulldozing trails with actual geophysical operations starting on January 11, 1958. Up to the period April 30th last, 232 miles of control was obtained, consisting of 224 miles of reflection control, 6 miles of inline refraction control and 2 miles of broad-side refraction control. This work took a total of 108 days, while an additional 3 days were required to perform 7 miles of off-permit reflection shooting. All of the off-permit shooting is within approximately one-half mile of the permit boundaries and was necessitated in view of inaccessible terrain. It is estimated that \$12,700.00 was expended in bulldozing trails to gain access to the southern portion of the project. This expenditure has been prorated over the Permits and it is our understanding, by virtue of our letter of application dated December 5, 1957 and your approval of December 26, 1957 that this cost may be credited as work against the Permits.

As mentioned in earlier correspondence, seismic operations are still in progress and we are attaching a plat outlining the work completed to April 30, 1958.

With reference to Mr. Christie's May 27th letter, the Statutory Declaration in the amount of \$236,044.00 is being certified by our auditors and will be returned to your office within the next two weeks.

Mr. A.B. Connelly
