Dear Mr. Tomm:

**Approval to Alter Condition of a Well for Para et al Mount Coty I-02  
Fantasque Re-completion**

The application to Alter Condition of a Well, pursuant to paragraph 80(1)(b) of the *Canada Oil and Gas Drilling Regulations* is approved for the subject well. Enclosed are two approved copies of each authorization. One copy is to be posted at the respective site of operations. Please note that file numbers and a Unique Well Identifier have been added to the form. During the course of the operation, daily operation reports are to be sent to the NEB office at (fax) (403) 292-5876. The program is to be conducted as contained in your submission of 1 February 2001. Any changes or major deviation from the program will require the additional specific approval of the Chief Conservation Officer.

Upon suspension of completion operations, please submit all raw (digital pressure and flow data) and any interpreted data from I-02. Gas flare volumes in excess of  $750 \times 10^3 \text{ m}^3$  will require separate approval from our office. Please note program conditions found in Attachment 1.

If you have any questions, please do not hesitate to contact Chris Knoechel at 299-3866.

Yours truly,

A handwritten signature in black ink, appearing to read "T. M. Baker".
