Daily Operations Maintain Access

When working on the Water log I found a tracking error of 565 cubes that were not fully accounted for and have made adjustments to reconcile the numbers on our Construction Report. Our Previous # 37,070 will reflect the corrected numbers effective today going forward. In the morning Rob guided the end dump up to the Well site to get a load of cuttings. Late this evening 2 end dumps stopped in with sawdust and to remove 2 loads of cuttings in the morning.
