Dear Ms. Clarke:

**ConocoPhillips Canada Resource Corp. (ConocoPhillips) Applications
for Approvals to Alter the Condition of a Well for the Abandonment
of the ConocoPhillips Dodo Canyon C-11 Well (formerly WW02-A),
Dodo Canyon West I-06 Well (formerly WW04-A) and Dodo Canyon
West D-04 Well (formerly WW05-A) (ACW-2015-007, 008 and 009) (OA-1211-002)**

The Office of the Regulator of Oil and Gas Operations (OROGO) has received ConocoPhillip's application dated June 23, 2015 for three approvals to Alter the Condition of a Well (ACWs) for the abandonment of the Dodo Canyon C-11, Dodo Canyon West I-06 and Dodo Canyon West D-04 groundwater monitoring wells.

I have issued the requested ACWs under ConocoPhillip's existing Operations Authorization (OA-1211-002) pursuant to subsection 10(4) of the *Oil and Gas Operations Act* (OGOA). The ACWs remain subject to the terms and conditions of that OA.

Please find attached signed ACW forms with terms and conditions. The ACWs have an expiry date of March 31, 2017.

I have denied ConocoPhillips' application for an exemption under paragraph 54(1)(b) of OGOA from the requirements of section 74(1)(a) of the *Oil and Gas Drilling and Production Regulations* (OGDPR). However, I agree that the survey data for the locations of the three wells in question be obtained as part of the EL 470 2015-2016 Well Suspension Program while winter access is available and submitted immediately thereafter.
