4: SOIL GAS SURVEY DATA

See Appendix 4, Well Abandonment Guide, for EUB-accepted procedures on how to test for surface casing vent flow gas migration. Note: Please record observed "zero" readings for soil gas Lower Explosive Limit (LEL). Do not leave blanks. The centre dot in the diagram represents the wellbore/casing.

On the diagram indicate the location of sample points and record percentage LEL readings.

Briefly describe test results and the condition of the area around the wellbore and on lease, e.g., vegetation growth, bare spots, contaminated soil, etc.

1 - 0%	7 - 0%
2 - 0%	8 - 0%
3 - 0%	9 - 0%
4 - 0%	10 - 0%
5 - 0%	11 - 0%
6 - 0%	12 - 0%
